THE SANITARY PROTOCOL

The protocol that follows has been written by the organisation committee of the Critérium de la Première Neige in line with the national authorities (health minister, minister of sports and the ARS), the local authorities (Prefecture of the Savoie and the town hall of Val d'Isère) and the International Ski Federation.

The principles, to date :

- **Mandatory to present a Health pass (Green pass)** to participate at the event.
- **Wearing a face mask is obligatory** in all indoor areas.
- **Keep your distance** in all areas.
- **A sealed red bubble** with very specific protocols.
- **A policy of virological RT-PCR nasopharyngeal tests** put in place for the red bubble and medias.

Worldcup-valdisere.com
criteriumdelapremiereneige

THE FIS WORLD CUP TESTING PROTOCOL

- The International Ski Federation defines a strict testing protocol for the following population groups in the red bubble :
 - ✓ *Athletes, Team Support Staff, Equipment Service*
 - ✓ *FIS Officials*
 - ✓ *Timing and members of organizing committee relevant to race production such as start personnel, judges, jury, Race Director, medical doctors and Finish area personnel and Race Office personnel.*
 - ✓ *Medias.*
- These population groups must upload their Health pass (Greenpass) on the FIS passport system and as well as **a negative RT-PCR nasopharyngeal test taken - 72h at the latest before arriving at the event and withdrawal of accreditation and accommodation. They will also be required to complete the FIS health questionnaire (see Appendix).**
- **Updated GREEN PASS mandatory in France:**
 - A complete vaccine card (Pfizer, Moderna, AstraZeneca & Johnson & Johnson)Or
 - A negative RT-PCR or antigenic test within the last **24 hours**Or
 - A positive RT-PCR or antigenic test less than 6 months and more than 11 days

ENTRY CONDITIONS FOR THE COUNTRY

In order to know the Entry conditions for the French territory it depends on which country you're coming from, follow these steps :

1. Click on this link :

<https://www.interieur.gouv.fr/Actualites/L-actu-du-Ministere/Certificate-ofinternational-travel>

2. Look up the categorized card of the countries in order to know the categorized colour of the country you're coming from.

3. Look up the entry conditions for French territory and the rules to respect depending on the categorized colour of your country of origin.

4. Updated French government measure:

Travellers coming from no European Union countries who enter in France :

- For those who have a complete vaccine card: a negative RT-PCR test within the last **48 hours**
- For those who are not vaccinated : a negative RT-PCR test within the last **24 hours**

THE LOCAL TESTING PROTOCOL

Medical coordinator COVID-19: Mr. Cuny Michel – medecin@valsport.org

Medical service for **management of positive and symptomatic cases** : Medical office Médival - +33479402680

✓ **Testing protocol prior to arrival at event :**

The organizer does not plan to have a laboratory on site to perform RT-PCR tests prior to arrival at the event and withdrawal of accreditations for groups of people belonging to the red bubble and for medias.

They are to make their own arrangements to have an up-to-date RT-PCR **nasopharyngeal test result prior to arrival at the event uploaded to the FIS Passport system, to facilitate their access and accreditations.**

Private laboratory contacts for RT-PCR tests (by appointment only):

- *Biogroup in Chambéry : Hôpital Médipôle, 300 Avenue des Massettes, 73190 Challes-les-Eaux*
- *Biogroup in Bourg Saint Maurice : 139, rue du Nantet, 73700 Bourg Saint Maurice*

✓ **Possibility of testing during the event (training and competition days) :**

The organizer plans to have a laboratory on the event site specially for testing groups of people from the red bubble and medias. The pre-registration process for carrying out RT-PCR tests will be done by a QR code transmitted later by the race office to the team captains, as well as the dates and opening hours of the laboratory.
